

## **Bulk Driver, PUR CO2**

*Winona, MN*

### **Primary Responsibilities:**

- Responsible for safe and timely transportation of liquefied gasses and related product.
- Ensure that internal and external customer questions and concerns are promptly and courteously resolved.
- Maintain vehicles and equipment as needed.
- Work closely with MWS stores, sales staff, and management to coordinate and communicate system installation and service related needs as needed.

### **Position Requirements:**

- Must possess current Class B CDL (Commercial Driver's License) with hazardous material, tanker and air brakes endorsements and have a history of safe driving exhibited by state MVR.
- Basic knowledge of CO2 distribution system components and general processes are also a plus, as troubleshooting based on these is required.
- Excellent communication skills; professional appearance, dress, and attitude.
- Ability to successfully work with customers to identify unique installation or repair related needs.
- Ability to work proficiently with basic power and hand tools.
- Ability to independently conduct basic troubleshooting (understanding of mechanical systems, locating troubles, fixing basic problems).
- Regularly lift up to 50 pounds and move 100+ pounds with the assistance of material handling equipment.
- Regularly work outdoors under all weather conditions.

### **Travel and Scheduling Requirements:**

- Daily out of town travel to service the MWS market area.
- The ability to work 8 or more hours per day per business demand.
- Intermittent weekend work per customer and business demand.
- Out of town and overnight travel for customer projects per business demand.
